1. [REDACTED] airfield south of Kreuzbruch (N 53/Z 88) was unoccupied and unguarded. Most of the landing field was a meadow, part of it marshy or overgrown with shrubs. Its present status precludes its use as an airfield. Some of the numerous cantonment buildings northwest of the field were occupied by settlers. *

25X1C [REDACTED] The status of the airfield has not changed compared with the last observation of July 1950. [REDACTED] The field is not being used by the Soviet Air Force. There were no indications of intended reconditioning of the field.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 18 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
